Challenges

1. COVID 19 pandemic that is still hindering the performance of the few active groups especially Boda Boda Projects
2. Poor group management by the group leaders leading to a high drop out of the members.
3. No operational funds since financial year 2019/20 which has greatly affected the Generation and routine monitoring of the YLP Groups
4. Lack of Transportation means for the Sub county CDOs who are key in the implementation of the Programme in the District
5. Poor mindset of the youths towards the Programme which has greatly affected the commitment of the Youths towards their project

Recommendation

- ✓ The Ministry should find possible means of supporting the Programme implementation for effective mobilization and monitoring.
- ✓ The youth leaders should be at the forefront of ensuring the funds are recovered for the continuity of the Programme.
